## COMMENTS FROM THE OFFICE OF THE TOWN MANAGER

A budget was presented to the Board of Selectmen last Monday night indicating expected expenditures for 1970 of \$450,000 compared with \$420,000 in 1969. This is based upon a 15% increase in school assessment. We will not receive a final figure of school costs until the last of January but we have to prepare our budget prior to that date. The 15% additional will increase the assessment \$36,700.

We have been told to expect a considerable increase in the Hydrant Rental Account as the PUC is insisting the town pay a greater portion of the revenue received by the Water District. The trustees have attempted to keep the cost to the town as low as possible. Further effort will be made by both the trustees and municipal officers.

Using the same valuation as we had in 1969 the budget as presented will increase the mill rate from \$42 to \$45 per thousand. There should be some gain in valuation as a result of new buildings. Exemptions will offset a part of this gain.

## GOVERNOR EXTENDS HOLIDAY GREETINGS TO MAINE CITIZENS

The following is the text of Governor Kenneth M. Curtis' Christmas message to the citizens of Maine:

"Mrs. Curtis and I and our children, Susan and Angel, want to take this opportunity to wish you all a Happy Holiday Season. In the past three years that we have lived here in the Blaine House, we have met thousands of Maine citizens who have extended to us their good wishes and warm thoughts. Perhaps no other time in the year provides us with a better opportunity to express our deep appreciation, and at this solemn and holy season we join in the prayer that the coming year will bring peace to the world, help those in need, and provide the opportunity for all to enjoy the many blessings that life offers. May you all have a very Merry Christmas and a most Happy New Year."

Mr. and Mrs. Edward Wheeler are spending Christmas and the week end with Mr. and Mrs. Burnham Rice and son, in Alexandria, Va.

There's more, much more to Christmas  
Than candlelight and cheer;  
It's the spirit of sweet friendship,  
That brightens all the year,  
It's thoughtfulness and kindness,  
It's hope reborn again,  
For peace, for understanding  
And for goodwill to men!

## "CITIZEN" TO PUBLISH EARLY NEXT WEEK

The Citizen will be published on Wednesday of next week, due to Thursday being New Year's Day, and its resulting lack of mail service. Contributors are reminded of the earlier deadline. It would be helpful if copy was received by 5:30 p. m. Tuesday, and by 10 o'clock Wednesday morning at the latest.

## "BEHAVIORAL SCIENCE" UNIVERSITY TO BE FOUNDED BY NATIONAL TRAINING LABS

A unique university, devoted entirely to the behavioral sciences, awarding no undergraduate degrees and with a student body primarily over 30, will be built in the Washington, D. C. area.

The university, as yet unnamed, will be built on a 375-acre site near Dulles Airport by the National Training Laboratory Institute, the people who pioneered the concept of "sensitivity training."

NTLI trains people to apply the behavioral sciences—including sociology, psychology, and psychiatry—to the human experience to help individuals deal with each other more effectively.

NTLI's "students" over the past 22 years have included not only individuals, but business corporations and even countries. The organization teaches, for example, how the president of a company can communicate more effectively with his subordinates or the president of a country with his government.

Dr. Leland P. Bradford, executive director of the institute and first president of the new university, announced last week that clearance of the site, adjacent to Route 50 and eight miles west of Dulles in Loudoun County, will begin shortly, with ground-breaking expected to begin in about a year. The total project is expected to cost about \$20 million.

## AGRICULTURAL TRADES SHOW AT LEWISTON, JAN. 13-14-15

The 29th Annual Agricultural Trades Show will be held in the Lewiston Armory, Lewiston, on Jan. 13, 14, and 15, 1970. The sponsoring organizations who make this show such a success are Maine Department of Agriculture, Maine Cooperative Extension Service, Maine Dairymen's Association, Maine Milk Program, Maine State Florists' Association, Maine Forestry Department, Maine Maple Producers Association, Maine State Pomological Society, Maine Poultry Industry Association, Maine Sheep Breeders' Association, and Maine Vegetable Growers' Association.

According to Robert Stubbart, show manager, Maine Department of Agriculture, this year's show will be as colorful, entertaining, and informative as any held in previous years.

Not only does this mid-winter show give many of the participating groups an opportunity to hold their annual meetings in a central location, but it gives members of all these groups and other interested persons an opportunity to hear leaders in the many and varied fields of agri-business explain new developments and techniques. Also of interest to the farming community is the wide variety of new farm machinery and products for use around the farm which will be displayed and explained on the vast floor of the armory.

With Maine farms becoming more and more mechanized and the need for better informed and more knowledgeable farmers the Agricultural Trades Show fills a definite need at the right time of year.

"... and laid him in a manger"

"May we all pause and reflect from time to time during this Christmas season, that we are celebrating not only a happy holiday where we give and receive gifts, but, above all, the most important single event of all history — the birth of Jesus Christ!" — the final narration in Sunday's pageant. Once again the Living Nativity

Scene was presented on the Bethel Common to help make Christmas more meaningful for the community and visitors.

Mr. and Mrs. Alvin Barth, Jr., co-chairmen, said that area churches, civic organizations and townspeople were most cooperative in helping to make the sixth annual presentation another successful event.

## NANCY CHAPIN IS RECIPIENT OF ELISE HATCH MEMORIAL SCHOLARSHIP AT U. OF M.

A friend and fellow graduate in the same high school class has been named the second recipient of the Elise R. Hatch Memorial Scholarship for the academic year 1969-70 at the Orono campus of the University of Maine.

This year's recipient of the honor is Miss Nancy Mae Chapin of Bethel, a classmate of the late Elise Hatch at Gould Academy. Miss Chapin is now a sophomore in the nursing program at the U. of M.

Miss Chapin, daughter of Mr. and Mrs. Charles S. Chapin of Bethel, will receive the earnings from the endowed fund which was established by schoolmates, friends and relatives of Miss Hatch in her memory.

Miss Hatch had been accepted as a member of the U-M freshman class of 1971 when she died in an automobile accident Sept. 6, 1967, at Orono.

Annual income from the award is given each year to a woman student from Maine following her freshman year at the University of Maine. In announcing this year's selection university officials said that Miss Chapin closely exemplified the traits of leadership, scholastic attainment, values and interests of Miss Hatch.

Miss Chapin started her nursing training in Massachusetts and transferred to the University of Maine at Orono last year as a freshman. She is a Dean's List student, active in intramural athletics and is a member of the University of Maine Associated Nursing Students.

Miss Hatch, the daughter of Mr. and Mrs. W. H. Hatch of Islesboro, attended Islesboro elementary and junior high schools and graduated from Gould Academy in June, 1967. The memorial fund in her honor was established through contribu-

Larry Wade, of Dover, Mass., is in town. He is helping, Sally, Buck with the Christmas Eve program which is put on by the Upton children.

Mrs. Edith Kenyon, a long time summer resident here, sent two boxes of grapefruit and oranges which are being distributed.

May all your homes be filled with the divine love which gave us that first Christmas.

**Letters to the Editor**

To the editor,  
One of the principles upon which Telstar Regional High School was established was that education should—and indeed must—do all within its power to capitalize on the needs and abilities, the goals and potentialities of each and every student as an individual. Too often our schools have become alienated from life as it actually is and will become in the next sixty years by the expediency of an assembly-line manufacture of educational "products".

The erection of a beautiful new building, outfitting it with some of the latest equipment, and adopting a variable class schedule really has little bearing on the application of the idea expressed in the principle of the importance of the individual in the education process.

Individual differences of students can be recognized and worked with by a teacher in a single classroom, with twenty or thirty students, and without the new building and elaborate teaching aids. The employment of consultants, supervisors, and guidance counselors does not in itself assure that differences will be acknowledged and developed to their fullest extent.

They contribute to a successful program only when teachers in their classrooms, administrators in their decision-making positions, and directors in their policy deliberations dedicate themselves completely to the principle of meeting individual needs based on individual abilities. Without this dedication, the students at Telstar are being shortchanged in the worst way possible.

Dear Editor,  
I would like to express appreciation to the families' many friends, relatives and neighbors extending sympathy last week at the death of my father, Benjamin Ball.  
It certainly was a sad experience my father had to go through. Many expressed sympathy, thinking he died of old age illness. To set the record straight and so there will not be any more shocked faces when told he was murdered would you please print this?

My father was in excellent health three months ago and died because much of mankind today has a thirst for violent action. He was beaten up somewhere between Tremont Temple and the Peter Bent Brigham Hospital in Boston. By whom or why no one knows except those who did it and the Creator of humankind Jehovah. Soon our creator is going to do his great act, and some of the reasons for it is, this kind of violence, wars and degenerate ways.  
This is a generation of violence, born among violence, living for violence.

## MISSIONARIES WON'T BE HOME FOR CHRISTMAS

Although Christmas is a family time of the year, Elder Garry Baker and Elder Michael Lents, missionaries for The Church of Jesus Christ of Latter-day Saints, will forego spending the season with their families for a special reason.

They will be calling on the families in the area to share a message about the central figure of this festive time—Jesus Christ.

Said Elder Baker, "Part of the Christmas message deals with the prophets of old foretelling of the birth of the Son of God. 'For unto us a child is born, unto us a son is given; and the government shall be upon his shoulder; and his name shall be called Wonderful, Counselor, Thy mighty God, The everlasting Father, The Prince of Peace.' Our message concerning Christ is that he lives, that He is the Son of God and the Prince of Peace, and that he brought to the world the means of having 'Peace on Earth, Good Will to Men'."

Elder Lents went on to say, "It is a pleasure to serve in the Bethel area and to feel of the warmth and friendliness of the people here."

Most of the missionaries of the Church originally come from the West and find the Christmas Season in New England and Eastern Canada special to them. They find joy in presenting their message to people and in spreading Christmas Cheer.

They invite all residents of the area to attend Church services especially during the Holidays. The

lence and sowing violence throughout the earth. We can see and many of us personally feel the reaping of this violence sown, by single murders and mass murders as in humankind's wars. It will continue until Jehovah puts an end to it as he promises at Armageddon.

Those who love Jehovah and take the time to find out about him and his son Christ Jesus can be of good cheer. They can survive this generation as Noah did his and start anew on a cleansed earth. Matthew chapter 24: Revelation or Apocalypse 21:1-5. These words of Jesus are soon going to be fulfilled.

Jesus gave a promise, John 5:28, "Do not marvel at this because the hour is coming in which all those in the memorial tombs will hear his voice and come out". Christians will then be unspeakably happy to welcome back their loved ones and teach them about God's kingdom established, as taught by the promise of that "Our Father or Lord's Prayer", Matthew 6:10, Daniel 2:44.

What a wonderful promise of a fresh start for mankind with the words of Revelation showing just how humankind will be blessed by this peaceful ruling government without end.

Thank you sir for letting me set the record straight and express the hope and comfort Jehovah God has given me through his word and the life example of his son Christ Jesus the now reigning King and Prince of Peace, now ruling amongst his kingdom enemies.

Sincerely,  
Elizabeth Duran

## PORTLAND BISHOP HAS CHRISTMAS MESSAGE FOR ROMAN CATHOLIC DIOCESE

The following is the text of Bishop Gerety's Christmas message to the priests, religious, and the faithful of the Roman Catholic Diocese of Portland:

"On Christmas we celebrate the day when the Second Person of the Blessed Trinity, God the Son, became man. It is the day when Jesus Christ was born of the Virgin Mary and began His saving presence among us. It is the day when God's love for us was made manifest in the most tender flesh of a little child laid on a bed of straw.

"On the first Christmas in Bethlehem, almost 2000 years ago, the angel said to the shepherd's 'Behold, I bring you good news of great joy which shall be to all people'. This day is meant for 'all', no one is to be

excluded, Christ came to save the young and the old, the rich and the poor: the sinner and the saint. He is the salvation which God 'has prepared before the face of all people'. He is the 'true light that enlightens every man who comes into the world'.

"There is only one price tag on the joy Jesus Christ came to offer to each one of us. We must receive Him into loving heart. We must let His light penetrate deeply into our minds. If we do so, then Christmas will be a time of real spiritual happiness and peace of soul.

"I pray that God will grant to everyone in our Diocese true Christian happiness on this Christmas. May the great feast day of Christ's coming be for you a day of rich blessings of deepened love in your homes as you share with one another. And may we all, our part in sharing the gifts and graces of this day with open and generous hearts."

## GREENWOOD CITY

**Mrs. Callie Morgan, Corres.** — Christmas season again and I think of bells, Christmas time in the country, a different world than today, and gatherings when I was young.

Santa always arrived on time and left us a message. What he said I don't remember. He no doubt told us that Christmas Day was a holy day and that we celebrated the birth of Him who came to point the way of men's feet.

I remember the white sparkle and the beauty of the hills, the sleigh rides and the getting of a tree; a symmetrical spruce just right for a sparkling white star at the top. When we found the right one we felled it and brought it back to the woods. It was set on a standard and carried to the living room.

Some years on this occasion the sun was bright in the blue sky and the hills beautiful in silhouette across the valley. Other times the sky was gray, the earth waiting for its cover of white. But it was always peaceful there among the first and spruces and the white pines.

We completed our chores earlier so that our family might gather around the tree. The decorations of the year before were brought out; red paper bells which opened like an accordion, silver strings of tinsel and gleaming white stars and long strings of popcorn.

Father fastened the star to the very top then from hiding places over the house, gifts and goodies appeared.

The most vivid memory is of all of us together around the stove with its leaping flame through the isinglass door listening to stories of Christmas.

Christmas meant gifts and nine stockings in a row. But most of all it meant family love and unity and as I climbed the stairs to my room I'm sure I thought about the true meaning of Christmas. Perhaps we, and the whole world need to think more about the common things in this day of vague alarms. Outside dotted in grace stand the groves of pine and spruce, mountains rise in the distance, and the sun looks down

and smiles. These make us realize how futile is much of our hectic rushing to and fro—how less than satisfying are many of our elaborate undertakings.

With the present Christmas Day here, it is still the old, old story of Him who was born in the little town of Bethlehem to bring peace and love to all mankind.

In our anxiety over the present confused conditions in the world, it may be that with our lesser vision we are not seeing far enough into the future for which today may be only a preparation.

Certainly never before in my remembrance have there been so many people talking about peace, anxious for peace and pondering earnestly on how to attain it.

Facing the future, with high hope and great faith you are again wishing a Happy Christmas, with that peace that passeth all understanding.

## CLIP N' SAVE

## 2 YEAR TRACK WARRANTY

A two year warranty against track separation applies to all 1970 single cylinder MOTO-SKI models.

Standard warranty applies to 438, 500 and 634 cc models.

## "Story of Moto-Ski's Exclusive Track"

Every MOTO-SKI built features our exclusive and unique Rubberized Steel Cleated Track.

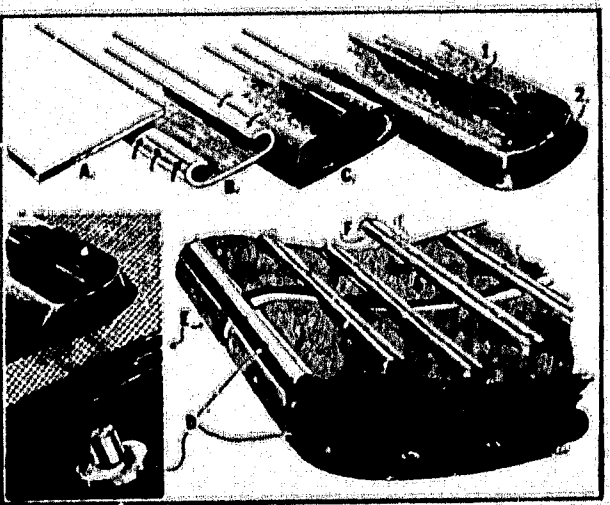

What's so special about this track? Take the cleat itself: we start with a slab of flat steel (A). First, we put a very exacting curl to the metal's edge (B); then, each cleat is carefully hand-dipped in molten rubber and molded. Note how the curled edge allows the steel to become completely encased (C). Final shaping of each cleat gives this track its prime characteristics: (1) the traction ribs for hard-packed or crusty snow (2) the beveled edge for superior performance in deep, soft snow.

Damage to ordinary, molded tracks, without cleats, requires total track replacement (at about a hundred bucks!).

On the MOTO-SKI track, individually mounted cleats can be quickly and inexpensively replaced (F). Each is secured with a half-dozen, tubular steel rivets (D) at intervals of about every three inches. The 3-ply belt (E) is constructed of the highest quality rubber and nylon and is designed with a roughly textured outer surface (greater traction) and a smooth inner finish (less friction). Its non-molded construction creates far greater flexibility at lowest temperatures... providing maximum conformability to all type terrain.

When you invest in a snowmobile, you have a right to expect that it will go where snowmobiles are supposed to go. With its exclusive track, MOTO-SKI meets this responsibility. The result: a superior performance on ice, crust, snow, deep snow and deep, deep snow.

The standard MOTO-SKI track width is 15". The big wide track measures 18" across.

**NEW WITHHOLDING RATES MAY BE IN EFFECT**

The Internal Revenue Service assured employers this week that preparations are being made to furnish, at the earliest possible date, the rates and tables to be used for Withholding Income Tax from wages of employees paid on and after January 1, 1970.

Computer runs have already been made to determine the rates and tables which would be prescribed if Congress and the President approve the withholding provisions agreed upon by the House and Senate Conference on the Tax Reform Act of 1969, (H.R. 13270).

If these provisions become law, the seven Regional Internal Revenue Service Centers will, as soon as possible, thereafter, mail individual copies of the rates and tables to each of the 4.5 million employers who withhold income taxes. The rates and tables will be issued as a 24-page supplement to the regular Employer's Tax Guide (Circular E).

The new tax bill, as approved by the Conference, introduces a low income allowance and would reduce the surcharge portion of the Withholding tax from 10% to 5% between Jan. 1 and Dec. 31. It also would eliminate the surcharge altogether from withholding, starting July 1. Before that date employers will be mailed a completely revised Circular E, containing updated instructions as well as post-July 1 rates and tables.

The Internal Revenue Service recognizes that some employers may not have adequate time to prepare for the Jan. 1 changeover in withholding. Therefore, it urges employers to do their best in installing the new rates and tables as soon as possible. Good faith efforts to do so will be accepted as substantial compliance with the law.

**OVER 2,000 DEER EXAMINED AT BIOLOGICAL CHECK STATIONS**

About 8,000 hunters were interviewed during the past hunting season at Inland Fisheries and Game Department biological check stations operated throughout the state.

Frederick F. Gilbert, big game project leader, said that as a result of the checks, more than 2,000 deer were examined. "Analysis of the responses of the hunters to the interview questions will give us a better understanding of hunting pressure characteristics and let us know deer hunters' opinions on many subjects," Gilbert reported. Further, Gilbert said, the biological data obtained from the deer examined will aid the Fish and Game Department in determining future management proposals for Maine's white tail deer.

"I would like to express my appreciation to the many resident and non-resident hunters who took time to stop at the stations," Gilbert said.

**1970 DOG TAGS DELIVERED TO MAINE CITIES AND TOWNS**

The Animal Industry Division of the Maine Department of Agriculture has announced today that 98,450 1970 dog tags have been delivered to all Maine towns and cities. The new dog tags are of brass coated steel with the numbers deeply stamped into the metal. These new durable tags will resist wear and remain legible throughout the licensing period.

Owners and keepers of dogs are reminded that the law requires that all dogs six months or older as of January 1, 1970 or at such time as the dog becomes six months old must be licensed. The law also requires that any person becoming the owner or keeper of a dog after the first of January, not duly licensed as required, shall, within ten days after he becomes the owner or keeper of the dog, have the dog properly licensed. And the law further states that no license will be issued unless the dog has met the rabies immunization rules and regulations declared by the Commissioner of Health and Welfare; which regulation states that a dog may be licensed if he has been vaccinated within 730 days of applying for the 1970 license.

The fee for licensing a male dog or a spayed female is \$1.00 and for female dogs, \$5.00. The fee for kennels—\$10.00, not to exceed 10 dogs and \$20.00—over 10 dogs, plus 50c as a recording fee.

During last year, it was estimated that over 80,350 individual dog licenses and 1066 kennel licenses were issued.

**I. R. S. SENDS CARDS EXPLAINING NEW 1040**

The 13 million taxpayers in the United States who filed the now discontinued card 1040A form last year, have received a postcard explaining the change to the new consolidated 1040 form, Whitney L. Wheeler, District Director of Internal Revenue, has announced in Augusta.

This year all taxpayers will receive a larger, complete tax package that includes the one-page basic 1040 and additional pages or schedules, which may or may not be used according to the taxpayer's needs. Past 1040 users will find that except for a few items, the new 1040 asks for the same information as the old card form and that they will probably not need to fill out more than one sheet of paper to make out their returns.

In the past, taxpayers who used the 1040A could not take advantage of certain tax credits or exclusions and could not itemize their deductions.

The principal reason for making the change to the new form is to enable taxpayers to take full advantage of the tax benefits the law provides.

Most taxpayers should receive their
